Keypoint Intelligence — Buyers Lab (BLI) has judged a wide variety of Copystar multi-functional printing devices to be "Reliable" and "Highly Recommended," a globally-recognized seal of approval that demonstrates the quality of our devices.

Equip Your Business Against New Security Threats

With industry leading security protection, Copystar's Evolution Series provide enhanced device and document security that address not only today's challenges, but the challenges of tomorrow as well. Security starts from the ground up and Copystar ensures your data; your device and your network are always protected.

The Copystar Evolution Series comes with a whole range of new security enhancements:

Secure/Multipurpose Internet Mail Extensions (S/MIME)

Improves the security of email encryption by providing security for authentication, message integrity, the use of digital signatures and privacy and data security.

Simple Certificate Enrollment Protocol (SCEP)

Automatically ensures that the device has the latest security certificates and makes the issuing of digital certificates as effortless as possible.

Online Certificate Status Protocol/Certificate Revocation (OCSP/CRL)

Provides settings that can verify the validity of the certificates used in encrypted communications.

Security Information and Event Management (SIEM)

Provides the ability to log security events that help monitor potential unauthorized operations like malware, intrusions and information leakage.

TLS version 1.3 support

A faster, safer and more secure method of cryptography that encrypts data by providing secure communication between web browsers and servers.

The ISO/IEC-15408 Common Criteria certification shows our commitment to the highest standards of information security management.

Artificial Intelligence

Artificial Intelligence (AI) is transforming the world around us. Its impact can be felt in many aspects of our daily lives.

The Copystar Evolution Series has integrated new AI functions to improve performance while enabling new capabilities to be added throughout its lifecycle so that you enjoy the best possible MFP devices at all times.

Enhanced user experience and improved productivity

When scanning, you can now emphasize the handwritten part of the document without changing the format or image. This is a particularly useful function for proofreading documents, questionnaires, documents, drawings, etc. where thin lines and small characters are common. It's also possible to overwrite handwritten characters and lines on the document, using a white filler to make them invisible.

Superior image quality

With the new AI functionalities, improving low resolution images is quick and easy.

The KX printer driver supports the 'Super Resolution' function that compares images with information on the internet, identifying and converting low-resolution images to professional quality. Not only do you get fantastic quality, but you also spend less time making manual changes.

Join the Evolution

Be lean. Be green.

Work more efficiently while reducing your carbon footprint.

At Copystar, we are committed to doing the right thing as a human being. By going that extra mile, we provide the solutions that help boost the way you work while reducing your carbon footprint.

| Reduced TEC	Reduced energy consumption during sleep mode	Increased eco-credentials	Increased productivity

The new Evolution Series brings to the table reduced Typical Electricity Consumption (TEC) values without compromising on print speed or productivity. Meanwhile, energy consumption during sleep mode has been significantly reduced from 0.7W to 0.5W for both devices.

Being ISO 14001:2015 certified shows we don't just talk about acting sustainably.

Your Pains. Our Solutions.

With the Copystar Evolution Series you get:
